FRANTIC APPEALS TO THE LAST DITCHERS TO BE SANE.

LONDON, July 25.-Mr. Palfour, the leader of the Opposition in the House of Commons, has made an urgent appeal to those who are standing in the "last ditch" to "come to heel" and save the party from disruption. He has issued letter supporting the Marquis of Lansdowne and pleading with the peers to do likewise.

RUMORS OF MOROCCO CRISIS MAY BE FALLACIOUS.

The supposition is apparently to be attributed to official silence in London, rumors, such as that the Kaiser is shortening his holiday cruise and that Germany is calling out 400,000 reserves, as newspaper statements in Paris assert. Then there are the facts that the King has given an audience to Sir Edward Grey, the Secrerespectively.

The conferences at the Foreign Office were undoubtedly with regard to the situation in Morocco, but as Morocco is known to be the chief foreign problem engaging the countries concerned there seems no reason for supposing that the discussion was necessarily abnormal.

> There is considerable uneasiness on the Stock Exchange and on the Continental bourses. In the case of Berlin, however, the depression was made somewhat less at the close of business to-day by the report that a satisfactory statement would shortly be issued by Von Kiderlin-Wächter.

Mr. Balfour, the leader of the Opposition, asked Prime Minister Asquith in the House of Commons if it would be suitable for him to make a statement with regard to foreign affairs to-day. Mr. Asquith replied that it there should be anything for him to say he would announce it on

One of the most tangible expressions with regard to the supposed seriousness of the situation comes from the London Graphic's Berlin correspondent. It is to the effect that there is a deadlock in the negotiations and that Germany stiffly Adolphe Steinheil, an artist, and his refuses to modify her demands in the wife's stepmother, Mme. The correspondent adds that until the middle of last week it was resolved by Germany to pool the several outstanding colonial questions and strike a balance Germany made tentative proposals with regard to the Congo, which France resisted, but without any ill feeling on either side.
